

India Report April 22, 2009

Since we have returned from Nepal and India, just over 2 months, there have been numerous and wonderful reports given to us.

First, I must acknowledge that there were great and marvelous events of which we were privileged to be a part. We were in Nepal for two months where we had a **"Doing What Jesus Did"** school and numerous conferences which we will tell about in the Nepal report.

We did spend about one month in India teaching one more "DWJD" school. There, also, we were able to conduct pastor conferences, hold a healing rally and visit some rural villages. We were able to minister to small groups and individuals in these villages where, again, people were so open and receptive to the message of Jesus. His power to deliver, heal and bring eternal salvation was received and evidenced everywhere we traveled.

Figures were not kept of healings and the people that came to the Lord during this time. Numerous reports of the Lord's work were made known to all. One man was brought on a stretcher having been an invalid for several years. He secretly accepted the Lord during the service and was taken home on his stretcher. At 4:00 o'clock in the morning, Jesus came to him in a bright light and told him he was healed. He ran around the village letting everyone know that Jesus was alive and real. Jesus healed

him as all could see and **"they all believed upon Him."**

Pastors and Christian workers have taken their Bible teaching seriously since that time and have reported results too numerous and varied to count.

Ministry in the Village.
