CHICO AMERICAN LEGION BASEBALL

was founded in 1933. Currently, **Chico American Legion Baseball** has nearly 100 baseball players competing year-round, improving their baseball skills, working on their team skills, and learning the importance of dedication, sacrifice, commitment, and good character. These young men begin competing at the age of thirteen and play through the age of nineteen. There are three highly competitive levels: the **Chico Nuts** (16-19), the **Chico Suns** (15-17), and the **Chico Rice** (13-14). All three levels are comprised of the best youth baseball players in Chico and the surrounding communities, and are completely community supported and financed. We are proud that over **75%** of our players go on to **play some form of college baseball** while also working on their college educations.
