

**EVERY YEAR. BILLIONS OF DOLLARS OF FREIGHT ARE LOST OR STOLEN!
NOT ANYMORE!.....
ALL-TRAX REAL TIME LOCATION AND TEMPERATURE MONITORING SYSTEM GUARANTEES YOUR HIGH
VALUE FREIGHT ARRIVES SAFE.**

All-Trax recognizes the need for companies to track high value loads in “real time” as the merchandise is in transit. Our tracking solution provides the answer to:
What is the current location of the load?
Did the load stay on route throughout transit?
Did anyone compromise the integrity of the load?
All-Trax offers a reusable solution that provides accurate real time location monitoring for high value loads. Available with or without temperature tracking.

- Device:**
- Small in size
 - Lightweight
 - Long battery life
 - Low cost!

- Monitoring:**
- Locations and temperatures are monitored in real time, 24 hours a day, 365 days a year by our professional monitoring center.
 - Monitored by experts

- Alerts and Reporting:**
- Location Geo-Fence alerts
 - Location and temperature logging with date and time stamp
 - Receive daily emails on load locations
 - Reports are available to customers

All-Trax offer's an affordable way to secure your valuable shipments. Our portable GPS unit offers accurate location recording even in impaired environments like inside trailers, rail cars, buildings and enclosed packages.

Our 24 hour monitoring center watches your freight every step of the way. We notify you if the freight doesn't follow the correct route or temperature parameters become to high or too low and email you daily location reports.
