The Austin

Here is a home designed with busy families in mind. Traffic flows smoothly, there are special areas for privacy, and the kitchen is a model of efficiency and light-filled space.

The living and dining rooms combine to offer a vast expanse of space for entertaining on a grand scale, and the placement of the stairs to the second level with its optional skylight, lends a touch of unexpected drama. This home features nine-foot first floor ceiling with oversized windows.

The step-saving U-shaped kitchen with its sunny breakfast nook, sparkling new appliances, and handy laundry room is truly the heart of the house.

Upstairs, a gracious master bedroom suite with vaulted ceiling, luxury bath, and even a skylight should you so choose, invites relaxation. Also on this level are the second bedroom, and a third bedroom with a special loft option which allows you to enclose or not, as you so choose. More choices, more space, more drama . . . it's no wonder the "Austin" is the choice of so many busy young families.

Cambridge Homes, Inc. policy of continual attention to design and construction requires that specifications, equipment, dimensions and price be subject to change without notice. Please consult your Sales Representative for current details.
