## EXTENDED BREAKFAST

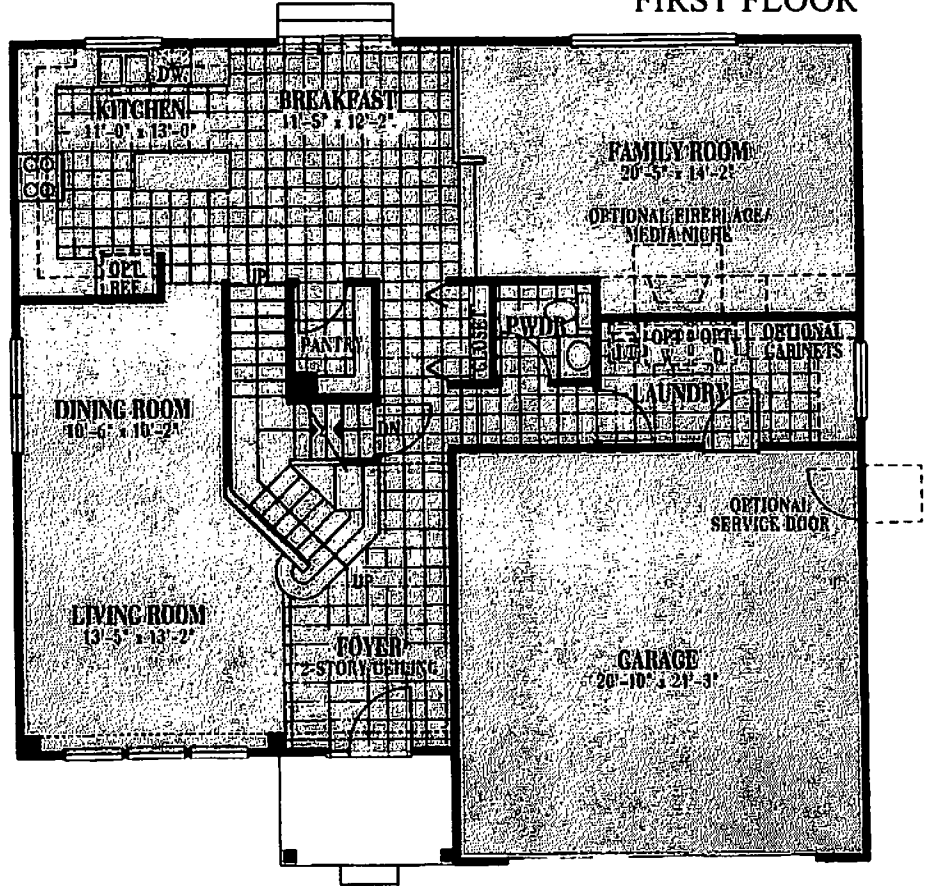

No detail has been overlooked. The two-story foyer, living room and formal dining room are gracious and light-filled, the powder room is conveniently located, and cabinets can be added to the large laundry room. In the kitchen, more storage is provided by the large walk-in pantry, and additional work space comes from the center island. The optional extended breakfast room maximizes available light in both the kitchen and the family room.

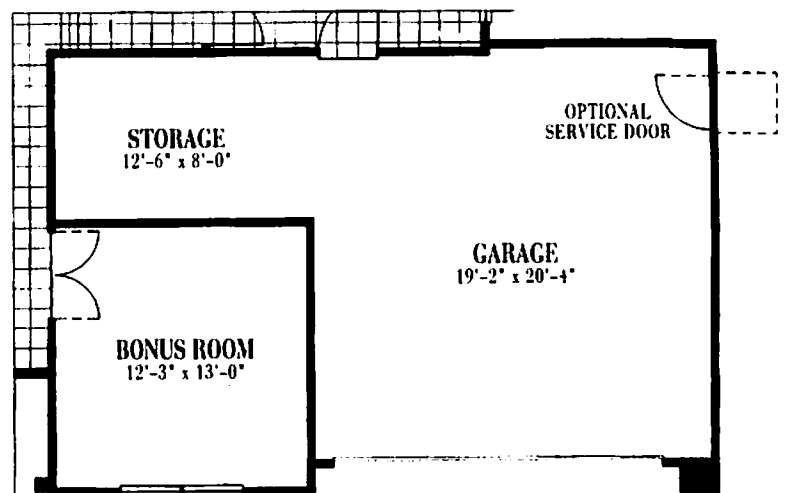

The unique dual staircase can be accessed from either the kitchen or the foyer. The master bedroom suite features a sitting room with optional fireplace, double walk-in closet, and a large and opulent bath. Three or four additional bedrooms, a large hall bath and plentiful storage complete this level.

A two-car garage is standard, 3-car garage is available as well as bonus room. The basement can be upgraded with a recreation room and bath.
