Duquesne Elementary School COVID – 19 Fact Sheet

At the Duquesne City School District, the safety of our students and staff has always been our highest priority. This is especially true as we prepare for the new school year during the COVID-19 pandemic. Listed below are the steps that the District has taken since March 13, 2020 and what we will be doing for the opening of the 2020 – 2021 school year.

1. The custodial staff has deep cleaned and sanitized the entirety of the building multiple times since March 13, 2020.
2. Enviro-Master Services, an industrial and commercial cleaning and sanitization service, installed 55 foam hand-sanitizing stations outside of every classroom.
3. On July 30, Enviro-Master Services staff are scheduled to spray the school building top-to-bottom with Sani-Guard protection, a long-lasting cleaning agent.
4. Enviro-Master Services staff are scheduled to sanitize the school building again before October 1.
5. Global Link has donated 1,250 washable cloth masks for staff and students.
6. The District purchased 2,250 face shields from the Biestle Company for both staff and students.
7. The District purchased (2) two commercial grade FOAM-iT Electric Mist Units from Germ Control Solutions.
8. The District purchased a 55-gallon drum of the *Pure* solution to use in the misters from Germ Control Solutions. The chemical is non-toxic to animals and humans. Once sprayed in an area, the solution will kill all germs on surfaces for up to one week.
9. The District purchased (5) five rolls of Ster-Tape to be placed on all push plates around the building from Germ Control Solutions. The Ster-Tape will kill all germs for up to six months upon touch.
10. The District purchased (2) two cases of ADA SZ door handle covers from Germ Control Solutions. The door handle covers will kill all germs for up to six months upon touch.
11. The District purchased (2) two 50-count medium sized lever covers from Germ Control Solutions. These sleeves will be placed on all toilet flush handles and will kill all germs up to six months upon touch.
12. The District purchased a portable custom steamer from Germ Control Solutions. The steamer will shrink-wrap purchased sleeves to firmly fit all handles.
13. The District has purchased (5) five bottle refill stations to replace existing water fountains. The bottle refill stations will be installed approximately the first week of August.
14. The District has purchased (1) one I-Proven ear and forehead thermometer for the nurse's use.
15. The District has purchased (1) one I-Proven non-contact infrared body thermometer.
16. The District is removing all carpets from classrooms and replacing with tile.
17. All teachers are to remove all personal carpets and fabric furniture from their classroom.
