

CCA Presents:

CCA's Management Bootcamp

"How to Run A Drycleaning Plant Easily, Efficiently, and Profitably"
Presented by Management Expert
Don Desrosiers

2 Day
Workshop!

The courses will explore the necessity of monitoring labor and production. Attendees will learn the basics of why you need to track information, and then will explore how to put that information to use.

This will also include an introductory version of his proprietary tracking system, FlightPlan, to help attendees understand the impact changes in operation can have on productivity. The program will also delve into time management, problem solving, and organizational skills.

- Calculating cost per piece
- Boosting productivity
- Managing labor costs
- Interpreting Information

October 20 & 21, 2017

Friday 10 am to 5 pm
Saturday 8:30 am to 3 pm

Oakland, CA Area

**REGISTRATION
