***COMMUNITY
CHARACTER
COALITION
OF DOUGLAS COUNTY***

Mission

**...to serve families, schools,
employee groups, and churches
by bringing character
development programs to the
Douglas County community
through liaison with the
leadership of the Coalition**

COMMUNITY CHARACTER COALITION HISTORY

**FOUNDED BY BOB
SNELLING IN 1999,**
the Community
Character Coalition is in
business to support a
principle that is so well
illustrated by a quote from
former President Teddy
Roosevelt. He said, “**To
educate a child in mind**

**and not morals is to create a menace to
society”.** The principle clearly states that
there are standards of **right and wrong**
behavior that transcend academic skills.
Some forms of behavior are acceptable;
others are not if a community is to survive
and thrive. The state of Georgia recognized
the need for character education in public
schools in the late nineties. The Character
Coalition exists to advocate teaching and
demonstrating positive moral character in all
arenas, businesses, schools, families, and
others. We are able to put any interested
party in touch with resources to accomplish
that purpose. If you are interested in the idea
of training your students, employees, or
other family members on the subject of
positive moral character and work ethics,
the **Coalition** is standing by to help.
