**"I believe punishment for fraud and recovery of stolen funds are so rare that the only viable course of action is prevention."**

—Frank Abagnale

## THE FACTS ON CHECK WASHING

- What is "Check Washing"?
  - A form of check fraud where criminals steal checks from the mail (or via other means) and erase the ink on the check, sometimes using common household cleaning solutions.
  - They then re-write checks to themselves in any amount they choose.
- Over \$815 Million is lost annually in the U.S. to check washing.
- Almost 9.9 million Americans have been victimized by some form of identity theft.

**CHECK FRAUD!**

## WHAT CAN I DO?

- Use the uni-ball® 207™ Gel! "The uni-ball 207 gel pens use inks that contain color pigments, which are absorbed into a check's paper fibers. When an individual tries to 'wash' a check written with a uni-ball 207, the writing will not dissolve because the ink is trapped in the fibers."  
—Frank Abagnale
