

Newburgh, NY Nov. 19, 2007 - Michael A. Vasquez Sr. , Series Director of the Allison Legacy North Race Series and Peter De Paola, President of aDP Rivet located in Hartford, Connecticut are proud to announce their new marketing partnership for 2008. aDP Rivet will be the official sponsor for the Allison Legacy North Race Series 2008 Rookie of the Year.

aDP Rivet is an efficient, full cycle manufacturing company celebrating its 10th year in business. aDP supports a Distributor Sales Program around the country with regional sales offices and stocking warehouses to insure prompt service and delivery. The team at aDP prides itself on the fact that a telephone call to them will insure you receive competitive pricing on standard and custom products as well as factual information to help you secure orders. aDP offers customers a reliable, domestic alternative to the hassles often encountered when dealing with overseas sources.

aDP Rivets are proudly made here in the USA and that goes well beyond the words printed on the boxes. It's aDP Rivet's no surprise guarantee that it's product's fit and functional properties perform to the highest degree of confidence for the design intent of the product.

aDP Rivet manufactures and stocks millions of Open End Style POP Rivets, 1/8, 5/32, 3/16 & 1/4" diameters in assorted materials including; Aluminum, Copper, Steel and Stainless Steel. aDP has its own line of Multi-Grip Blind Rivets, Easy Enter Blind Rivets, and Custom Blind Rivets Specials made to customer specifications.

At aDP Rivet they understand the needs of keeping up a good appearance on race day, by offering a custom POP rivet styled, Painted Open End rivet. In addition to their Multi-Grip Rivet Painted products, which features a 1/8" and 3/16" sizes with both standard flange and large flange configurations. Their Multi-Grip rivets feature a custom color range to meet your race team needs; these rivets perform well in varying grip ranges and offer the greatest holding power allowing you to speed up repair times at track side.

The *aDP Rivet Premium*, and *Ultimate* lines of *Racing-Rivets* offer a thicker thus stronger head form, which provides greater clamp-up and surface-holding strength than the competition. The *Premium aDP Racing-Rivets* come in 1/8" and 3/16" diameters and offer material combinations: Aluminum rivet body in both dome or large head form with aluminum nail, OR the more popular steel nail. The 3/16" diameter is offered painted in the popular racing colors: Black, White, Red, Dark Blue, Light Blue, Yellow, Orange, and Silver (unpainted aluminum).

Remember when looking for a top quality American made rivet for all your racing needs and more, look no further than aDP Rivet the leader in Rivet manufacturing.
