bulgarian tribulus terrestris
60% protodioscin

90 Capsules

Bulgarian Tribulus Terrestris is a medicinal herb that is standardised to 60% protodioscin by spectrophotometric assay and 15% by HPLC.

Reflex Nutrition have gone to great lengths to secure this very sought after material which is grown exclusively in Bulgaria. Other forms of Tribulus, usually from India or China do not compare.

All Reflex Nutrition products are made in accordance with ISO9001 procedures in our state of the art factory here in the U.K.
