## Results Without Drama

Imagine...results without drama. Strategy without execution is a wish. Execution without strategy is busy work. Most businesses are too familiar with the latter and eventually run out of cash. Sustainable success requires both. Learn how to link strategy to flawless execution with authentic communication, alignment, commitment and accountability.

## Seismic Generational Gaps

Never before in history have four generations so different from each other worked side by side. Traditionalists, Boomer's, X'rs and Gen Y are each puzzled by the inexplicable behavior of the others.

Understand their quirks and learn how to work with each with insight and mutual respect. Whether it's your boss, your peers, your employees or your family you will have the context to connect with the person beyond their earth suit. Entertaining and eye opening.

## Improv Everyone?

Business edutainment with complete audience participation. Laughter and learning using Improv to experience communication styles and the value of each and every one of us. Rave reviews and unforgettable.
