

Parent Alert!

We need your help to keep Pre-K classrooms open

- **Pre-K is cut 40% for next year in the current budget proposal. Many schools have already announced closing all Pre-K classrooms for next year.**
- **Closing Pre-K classrooms result in poorly prepared children entering Kindergarten causing well prepared Kindergarteners to miss out on teacher time. Overall classroom performance will decline.**
- **More children will need special services in Kindergarten through 3rd grade. Special services are costly and mandated by law.**
- **One dollar spent on early childhood programming saves \$8.00 to \$16.00 in later services. These savings are repeatedly supported by highly regarded research.**

Please help save Pre-K by joining in on our letter writing campaign.

Your letter can make a difference!
