Prior to joining Gallagher, Doug spent nine years managing and growing financial service teams at SouthCap Brokerage. As an active player-coach, he was personally responsible for the success of his organization and excelled at providing comprehensive insurance, investment and retirement solutions for successful families and business owners. The perspective he gained while in the financial advisory space allows him to relate to his current adviser clients and gives him the knowledge to craft suitable insurance solutions.

Originally from Milwaukee, Doug moved to Naperville as a child and it has served as his home town ever since. After obtaining a Business Administration degree from Augustana College, Doug returned to Naperville where he currently resides with his wife, Jacque, and their 4 children, Lily, William, Joey and Johnny.
