Jessica joined Underwriters Brokerage Service in June 2017 as Relationship Manager and Point of Sale Support. She focuses on enhancing advisor-client relationships and protecting them from competition through carrier-neutral life insurance solutions. Bringing over 18 years of experience in the financial services industry, Jessica's primary focus continues to be dedication to life insurance, long-term care and disability income solutions, coupled with excellent service.

Prior to joining Underwriters Brokerage, Jessica was regional Sales Vice President with MetLife for over 10 years.

Jessica's interest in the life insurance industry began in 2000 when she took her first career position with Prudential, and realized her passion for life insurance when her father passed away suddenly without enough, making her fully realize the impact life insurance, or the lack of life insurance, can have.
