

# Enterprise Zone Opportunities In the Cities of Clairton, Duquesne and McKeesport

## Keystone Basement Systems and Structural Repair, Inc.

A \$100,000 Enterprise Zone loan assisted Keystone Basement Systems and Structural Repair, Inc. to move to the Christy Park section of McKeesport. The move will allow for expansion and increase of its employee base. Currently the company has 14 employees.

According to Keystone President Aaron Stull, “We’re a full service basement waterproofing, structural repair and mold remediation company. We’re growing and this is a great property for us. The Enterprise Zone loan process was quick and easy and was an important factor in our decision to move to McKeesport”.
