CAS	Chemical Name	% by Weight
0007783-20-2	AMMONIUM SULFATE	90% - 100%

## SECTION 4) FIRST-AID MEASURES

**Inhalation:**

Remove source of exposure or move person to fresh air and keep comfortable for breathing. Get medical advice/attention if you feel unwell or are concerned.

**Skin Contact:**

Rinse/wash with lukewarm, gently flowing water and mild soap for 5 minutes or until product is removed. If skin irritation occurs or you feel unwell: Get medical advice/attention.

**Eye Contact:**

Gently brush product off face. Do not rub eyes. Let the eyes water naturally for a few minutes. Look right and left, then up and down. If particle dust does not come out, cautiously rinse eyes with lukewarm, gently flowing water for 15-20 minutes or until particle/dust is removed, while holding the eyelids open. Remove contact lenses, if present and easy to do. If eye irritation persists: Get medical advice/attention.

**Ingestion:**

Rinse mouth, drink plenty of water. If unwell or concerned : Get medical advice/attention. If ingested in large quantities, may cause gastric upset,ulceration or hemorrhage of G.I tract, and diarrhea. Get medical advice immediately. Induce vomiting only if advised by a doctor/POISON CENTER.

## SECTION 5) FIRE-FIGHTING MEASURES

---

**Suitable Extinguishing Media:**

Dry chemical, foam, carbon dioxide, water spray or fog is recommended. Water spray is recommended to cool or protect exposed materials or structures. Carbon dioxide can displace oxygen. Use caution when applying carbon dioxide in confined spaces. Simultaneous use of foam and water on the same surface is to be avoided as water destroys the foam. Water or foam may cause frothing. If leak or spill has not ignited, use water spray to cool the containers and to provide protection for personnel attempting to stop the leak.

**Unsuitable Extinguishing Media:**

Not available.

**Specific Hazards in Case of Fire:**

Ammonia fumes may be emitted; Oxides of Nitrogen may form in the presence of a catalyst(Platinum).

**Special protective actions:**

Wear protective pressure self-contained breathing apparatus (SCBA) and full turnout gear.

Use water to keep fire-exposed containers cool.

Care should always be exercised in dust/mist areas.

---

## SECTION 6) ACCIDENTAL RELEASE MEASURES

---

**Emergency Procedure:**

Keep unnecessary people away.

Small Spill: Use appropriate tools to put the spilled solid in a convenient waste disposal container. Avoid dry sweeping which raises dust.

Large Spill: Use a shovel to put the material into a convenient waste disposal container.

All personnel involved in spill clean up should avoid skin and eye contact by wearing appropriate personal protective equipment.

**Personal Precautions:**

Avoid inhalation of dust and contact with skin and eyes.

Do not touch damaged containers or spilled materials unless wearing appropriate clothing.

**Recommended equipment:**

Positive pressure, full-facepiece self-contained breathing apparatus (SCBA), or positive pressure supplied air respirator with escape SCBA (NIOSH approved).

**Environmental Precautions:**

Do not discharge into drains/surface waters/ groundwater. Retain and dispose of contaminated wash water.

This product is a fertilizer, and if discarded to waterways, may promote algae growth/eutrophication.

---

## SECTION 7) HANDLING AND STORAGE

---

**General:**

Wash hands after use.

Do not get in eyes, on skin or on clothing.

Use good personal hygiene practices.

Eating, drinking and smoking in work areas is prohibited.

Remove contaminated clothing and protective equipment before entering eating areas.

Eyewash stations and showers should be available in areas where this material is used and stored.

**Ventilation Requirements:**

Use process enclosures, local exhaust ventilation, or other engineering controls to keep airborne levels below recommended exposure limits. If user operations generate dust, fume or mist, use ventilation to keep exposure to airborne contaminants below the exposure limit.

**Storage Room Requirements:**

Keep in a cool, dry place away from any strong oxidizers, strong bases, chlorates or nitrates.

Containers of this material may be hazardous when empty since they retain product residues (dust, solids); observe all warnings and precautions listed for the product.

**SECTION 8) EXPOSURE CONTROLS/PERSONAL PROTECTION****Eye protection:**

Dust-proof goggles or safety glasses with side shields or vented/splash proof goggles. Contact lenses may absorb irritants. Particles may adhere to lenses and cause corneal damage.

**Skin protection:**

Avoid skin contact. Wear chemical resistant protective gloves. Additional protection may be necessary to prevent skin contact including use of apron, coveralls and boots.

**Respiratory protection:**

Dust respirator. Be sure to use an approved/certified respirator or equivalent. If exposure limits are exceeded, NIOSH approved respiratory protection should be used.
