

USA FIELD HOCKEY BELIEFS AND EVENTS CODE OF CONDUCT

USA Field Hockey believes in a players-first approach for our programs and events. We strive to create safe and positive environments in which learning and developing in a way that is fun and engages our youth players is more important than the outcome. We expect parents, coaches, umpires, administrators and fans to understand that developing youth as players and people is an important job requiring adults to act as positive role models. We also expect players to treat each other and all involved with respect. A recent survey done by Project Play, shows the #1 reason a child chooses to play a sport, and will continue to play throughout their lives, is because it's fun. **Thank you for demonstrating good sportsmanship at USA Field Hockey events!**
