

OSCA Internship Requirements

Students who wish to complete an Internship elective at Our Savior Christian Academy must meet the following guidelines:

- 95%+ attendance and non-frequent tardies
- In good standing with the school
- Zero behavioral concerns
- Minimum of C grades within all subjects

In addition, the student must find their own placement for the internship and this must be agreed with administration before commencement. All relevant paperwork will need to be completed prior to the student starting the internship.

The internship should not be a student's normal place of work unless agreed by administration – students need to be aware that there are maximum working hours (for paid work) for young people who are still in education.

If a student's attendance, tardiness or behavior declines, the administration holds the right to suspend the internship and the student will need to study at school with a suitable elective/ course chosen by the Principal.

Administration has the final authority and may adjust this policy based on the situation.
