Curriculum Set to Impress

Working to provide the best in Lutheran faith-based education includes a comprehensive, differentiated curriculum. This past year, OSCA partnered with the University of Missouri Kansas City to offer Freshman an opportunity for dual credits. A program evaluation report was provided by UMKC and included commentary such as, "I cannot believe the level of instruction these kids are receiving. Your program is one of the best we have seen. They are truly prepared for collegiate work." Kudos to Mrs. Rawlings, Criminal Justice instructor, who designed the program.

In addition, Spanish I students who completed the course work as an 8th grader, will receive high school foreign language credit. After evaluating our program, it was determined that the student body continues to perform at a level exceeding the state standards. Superintendent, Lavonne Pappert explains, "When you develop a program that centers around Jesus, combines hands on learning with instruction that meets individual needs, and you employ heavily invested staff, the result is rich. We are serious about education, and we are ready to show the world that faith-based opportunities are helping change the landscape."
