

# KNIGHT LIFE

## Our Savior Christian Academy Newsletter

Two campuses. One school.

## OSCA PARTNERS WITH YOU IN PROVIDING FIRST TIME OPPORTUNITIES

First steps, first friendships and first graduations. Firsts are like puzzle pieces which when put together, unveil a bigger and clearer picture. What firsts have you witnessed this school year? Perhaps it has been your child's first day of school, their first academic achievement or the first steps in growing their faith walk. With every first, we begin to see and understand the child God has perfectly created. At Our Savior Christian Academy, we have witnessed many firsts in our twelve years of existence, and just like putting a puzzle together, we are seeing the bigger picture He has for this amazing school.

This school year, students have been blessed with not only first time educational opportunities such as the study of apologetics, along side debate and rocket classes, but with extra-curricular opportunities, too. With the Missouri Department of Conservation grant awarded in the spring of 2018, OSCA has been able to offer in-depth archery classes to middle and high school students. In December, eight of these students took their archery skills to their first competition and competed against Platte Country R3, Smithville, Northland Christian and Lee Summit schools "We learned about the tournament process, the kids had fun, and we represented OSCA in a superior manner," stated archery instructor Dan Beach. "I am examining six possible tournament dates for the spring quarter to build on our initial success."

We are also witnessing first time volunteers, first time graduates of the Lutheran Church Missouri Synod Colloquy program, and newly enrolled students stating they feel like a part of a school family for the first time. We are so grateful to be able to be a part of your amazing firsts. We pray you will be a part of our many firsts yet to come, including our first high school graduation in the spring of 2020.
