Two campuses. One school.

STUDENTS YEAR-END SURVEY RESULTS DECLARE OSCA IS GOOD STUFF

At the end of every school year, OSCA senior administration asks middle and high school students, in the form of a survey, their thoughts about their teachers, their experiences, and what they would like to see for the future of OSCA. This year's results can be summed up by one student's response, "OSCA is good stuff." Good stuff absolutely! Isn't this what you expect from your faith-based school? When asked what makes OSCA so great, students responded by saying, "That we have the freedom to worship God," and "We are like family - both teachers and student body." And most importantly, "That I learn about Jesus."

"I have no words to describe OSCA because it isn't like anything I have been to. It is awesome. I love it."

OSCA student

OSCA's teaching staff has had a positive impact on your child and how they learn. Students commented, "Mr. Kelly helped me with math during his lunch over recess." and "I was struggling and Mr. Beach took time to discover how I learn." and "Mrs. Schrader invests in us and takes time with the English work." Small classes sizes and invested teachers is what sets OSCA apart from other local learning institutions. Besides strong academics practices, students commented on how they enjoy the learning atmosphere at OSCA. "I laugh a lot at school," stated one OSCA student. Another commented, "Laughing with my teachers." and "The snowball fight in Social Studies was the bomb." Ultimately, OSCA is here to be the light of Jesus in your child's everyday life. With Jesus in every lesson plan and on the lips of every teacher and staff, your student has been immersed in Jesus's teachings. One student wrote, "I doubted our religion and Mrs. P showed me the light in such a professional way. Christ is in everything they teach." and "My focus is on God way more than it was before." The future is looking bright for OSCA." As one student put it, "I like the direction the school is going. I am waiting for more!"
