

This is to certify that I have inspected and tested the

## Edgesafe Temporary Edge Protection System

and certify that all test results comply with and satisfy the requirements of the following standards:

- AS/NZS 4994.1:2009 Temporary Edge Protection – General Requirements
- AS/NZS 4994.2:2009 Temporary Edge Protection – Installation and Dismantling.

When maintained, installed and used in accordance with Edgesafe (Manufacturers) instructions and attached to minimum building structures as specified by Edgesafe (Manufacturers) instructions and recommendations.

Issued on behalf of  
Height Safety Engineers by:
