### *Eva's Secret Name*

**#1 New Children's Native American Literature\***

***The Adventures of Eva and Buckskin Charlie Series, Book 1***

Eva had only been in Colorado for a few weeks when she saw a tall, American Indian boy dressed in animal skins step out of the woods. Rather than running away, she trusted her instincts and the adventures began: gold, bears, Native American ceremonies, and secrets. Set in the foothills of the Rocky Mountains in the early 1870s, this gentle book tells the story of two families and two cultures, combining fact and fiction while staying true to the Native American concept of harmony and balance. *Eva's Secret Name* is available in paperback on Amazon.com or where books are sold.

*“It took two centuries and two bright kids to begin to bring our cultures together.”*

Louis Annance, former Chief,  
Western Maine Band Abenaki Indians

Ten-year-old Eva Norton and her family are about to leave their farm in Virginia for a trip across America by train and covered wagon. But leaving home means saying good-bye to her family, friends, and especially Aunt Helen. What will the future hold? Will her family find food to eat and a good place to build a cabin? Who will they meet? On the train ride to Kansas City, Eva witnesses a crime and learns how to tell the truth without needing to use words. When she meets the mysterious Madam Romanoff, a fortune teller from Romania, she hopes all her questions will be answered. *The Fortune Teller on the Train* is currently available on Kindle.
