Cindy Parke,
RNC, C-EFM, CNM, MSN
Nationally Respected
OB Educator

Certified Nurse Midwife, Legal Expert, Educator, and Clinician; Cindy has taught essentials of women's health,

pregnancy, childbirth topics, and fetal monitoring to nurses nationwide. She has extensive experience in preparing nurses for NCC certification. Cindy first practiced for many years as a L&D and charge nurse. She returned to school earning her Certificate in nurse-Midwifery and a MSN, then started the first private nurse-midwife practice in Toledo, OH. In 2011, she took over as Director of PEC. She now pours her devotion to giving the best care to women and families into her role as facilitator and educator. "I am acting as a midwife to nurses, so that they can provide a midwifery (with woman) model of care to the women they touch".

An active member of the ACNM and AWHONN, she supports and shares the work of Preeclampsia Foundation, ICP (Intrahepatic cholestasis of pregnancy), Improving Birth, CMQCC, and ICAN, (International Cesarean Awareness Network).

Cindy's focus has always been on teaching a physiologic model of care, and she stresses the need for each nurse to work at "putting all the pieces together". Her review for fetal monitoring includes a comprehensive discussion of not just NICHD terminology, but the concepts of fetal physiology, the why. There is also a review of maternal influences on fetal health including physiology and pathology.

The seminar assists you in choosing appropriate individualized interventions within standardized protocols, focuses on management in Category II fetal strips, and brings you new tools for recognition, understanding, and accurate communication with regards to fetal status. Respond well to both the normal and the critical clinical challenges that present in Antepartum and L&D and review for the RNC exam.

WHO SHOULD ATTEND?

- Antepartum and Labor & Delivery Nurses
- Cross-Training Nurses
- Advanced Practice Nurses
- Physicians
- Professionals Planning to Take the NCC or Perinatal Quality Foundation Exams

This seminar includes essential content to validate your core EFM knowledge with vital updates in research. NICHD, AWHONN, ACOG and ACNM fetal monitoring standards and guidelines are presented. An on site paper-pencil NCC EFM examination is available to those who have applied for, and been accepted as an eligible candidate, of the EFM subspecialty exam.

Pre-class review of EFM concepts is strongly recommended. Taking the review course does not guarantee passing the exam.

PROGRAM OBJECTIVES:

Following comprehensive lecture, discussion, A-V presentation, audience response testing, and case review, you will be able to:

1. Describe fetal-uteroplacental physiology.
2. Identify factors influencing fetal oxygenation.
3. Demonstrate knowledge of fetal monitoring equipment and troubleshooting measures.
4. Recall elements of EFM pattern interpretation including: baseline, variability, accelerations, decelerations; and uterine contraction characteristics and influence on fetal oxygenation.
5. State clinical interventions for EFM patterns and the related maternal-fetal physiology.
6. Recognize FHR dysrhythmias and variant patterns.
7. Discuss common complications in pregnancy that impact maternal-fetal well-being.
8. Review fundamental principles of fetal acid-base status.
9. Explain auscultation concepts for antepartum and intrapartum utilization.
10. Summarize adjunct fetal surveillance methods including antepartum testing.
11. Critique professional and patient safety issues in EFM.

ADDITIONAL OFFERINGS...

HomeStudy Unit: 8th Ed.
Mosby's Pocket Guide Series: *Fetal Monitoring: A Multidisciplinary Approach*
 Purchased with 8 Hour CE Self-Study Unit
\$5.00 Discount available at Conference or if ordered w/Registration for class.

Miller's ReadRight EFM Ruler!

This innovative tool makes EFM strip evaluation EASY!
ReadRight Rulers available at class/\$10.00

WHAT PEOPLE SAY...

"Overall very happy and confident: I'll definitely be changing some things in practice for the better!"

"Great class! Very well organized"

"Amazing class, very knowledgeable instructor"

"I think I learned more about the physiology of labor and the fetus, than I have in 7 years of L&D nursing"

Electronic Fetal Monitoring Advanced Review

7:30 Check In - Continental Breakfast
 8:00 INTERACTIVE SESSION USING YOUR SMART PHONE • NICHD EFM definitions
 PHYSIOLOGY
 • Fetal-Utero-Placental Circulation • Intrinsic/Extrinsic Influences • Oxygenation Pathway • Physiologic Goals
 FETAL ACID-BASE STATUS
 • Terminology • Aerobic versus anaerobic • Interpreting cord blood gas values
 COMPLEX FACTORS AFFECTING OXYGENATION
 • Maternal Consideration • Placenta, Umbilical Cord, Amniotic Fluid Variations • Uterine Activity • Meds
 PATTERN INTERPRETATION AND MANAGEMENT
 • Baseline • Variability • Accelerations • Decelerations
 • Uterine Activity • Tachysystole • Intrauterine Resuscitation • Categories • Application of the Category II Consensus Algorithm • Dysrhythmias • Standardized Approach
 EFM AND MATERNAL COMPLICATIONS
 • PTL • Hypertension • Postdates • Obesity • Diabetes
 • Placenta Previa, Abruptio • Uterine Rupture
 • Infection • Multiples
 ANTEPARTUM FETAL SURVEILLANCE
 • Kick counts • NST • CST/OCT • BPP • Modified BPP
 • Dopplers
 HOMEWORK OPPORTUNITY Adjourn: 4:00

You spoke, we listened. You wanted a one day 8 hour EFM seminar, AND you wanted a more limited one day Ultrasound program for those just doing third trimester fetal assessment. Our solution: Put the two one day programs together and give you the choice to combine!

PEC gives you choices:

Take the one day Fetal Monitoring, with the optional NCC specialty exam on site

Take the one day *Limited OB Third Trimester Ultrasound*

Take both seminars over two days: A perfect match and SAVE!!

Schedule varies by site, review dates and offerings carefully; not all options at all locations.

* NCC on site examination is limited to participants who:

Attend the seminar

Have applied correctly to NCC (at least 21 days prior to the exam date)

Have been accepted, and have an NCC EFM exam admission letter for the PEC site.

Pay attention to dates for testing on-site.

***NCC Candidates for on-site testing, be sure to observe the dates and register correctly: see Below for Registration Directions**

*The NCC EFM Specialty exam is separate from and has no affiliation with this course. It is PEC's goal to support higher standards of continuing education and to assist nurse's seeking certification, thus PEC has established the option for PEC EFM course attendees to sit the NCC exam. NCC sends an email following receipt/approval of exam application. **Must print off letter and bring to test site.** Contact NCC if you have applied and have not received your admission to exam letter. Testing site inclusion does not constitute NCC endorsement of course, course content, or materials provided. NCC and PEC are not affiliated organizations. A collaborative effort has provided an educational (PEC) and testing (NCC) opportunity to clinicians nationwide. PEC has no authority to approve, disapprove or vary any requirement for qualifying for or taking any NCC exam.

Registration for the onsite NCC exam following attendance at the course is separate, and \$160; we suggest registering using the link to NCC on our website: www.proedcenter.com. Please note there is a \$30 nonrefundable test administration fee due PEC for the onsite exam. This is separate from the NCC exam registration and fee of \$160.
