

# TRANSITIONAL PASTOR TRAINING FOUNDATIONS

WEDDINGTON, NC // OCT. 19-21, 2021

The loss of a pastor, regardless of the reason, precipitates a disruption in the emotional, spiritual, and organizational life of any congregation. Many leaders in congregations have not borne the responsibility like this before and, feeling responsible, they seek to return to normalcy as quickly as possible - and this is completely understandable. However, church leaders often fail to consider they have not only lost an employee, but also relationships, a stabilizing presence, and a trusted confidant.

You are invited to participate in this Transitional Pastor Training Seminar where you will learn, together with your peers, how to recognize the issues congregations face, how to provide a consistent non-anxious presence, how to guide the leadership and the congregation to envision God's preferred future for them. In the process, you will give the search team and the congregation the space they need to prepare for the next called pastor.
