### [Verse 1]

          C                                  G  
Before I call, before I ever cry  
          Em                                  D  
You answer me from where the thunder hides  
          C                                  G  
I cannot run, this heart I'm tethered to  
          Em                                  D  
With every step, I collide with You

### [Chorus]

C  
Like a tidal wave  
G  
Crashing over me  
Em  
Rushing in to meet me here  
D  
Your love is fierce  
C  
Like a hurricane  
G  
That I can't escape  
Em  
Tearing through the atmosphere  
D  
Your love is fierce

### [Verse 2]

          C                                  G  
You cannot fail, the only thing I've found  
          Em                                  D  
Is through it all You never let me down  
          C                                  G  
You don't hold back, relentless in pursuit  
          Em                                  D  
And every turn I come face to face with You

| C | C | Em | D |

### [Bridge]

C                                  C  
You chase me down, You seek me out  
Em  
How could I be  
D  
Lost when You have called me found?
