

60,000,000+

windows featuring SunShield®

Deceuninck's proprietary SunShield compound ensures long-lasting color retention and low maintenance – PLUS, the added confidence of knowing a global company with more than 75 years of knowledge and experience stands behind the SunShield promise with a lifetime warranty against rotting, cracking, pitting, corroding and peeling.

A History of Success

All of the Benefits

- Weather resistant
- Excellent color retention
- Dimensional stability
- Impact resistant
- Environmentally safe
- Self-extinguishing
- Low maintenance
- Resistant to rot and insects
- Energy efficient

About Deceuninck

Deceuninck Americas is part of Deceuninck NV, a global leader in vinyl and composite products for the building industry for over 75 years. Deceuninck is committed to continuous innovation and unrivaled quality, ensuring that when you choose Deceuninck, you enhance your living spaces with beauty and value.

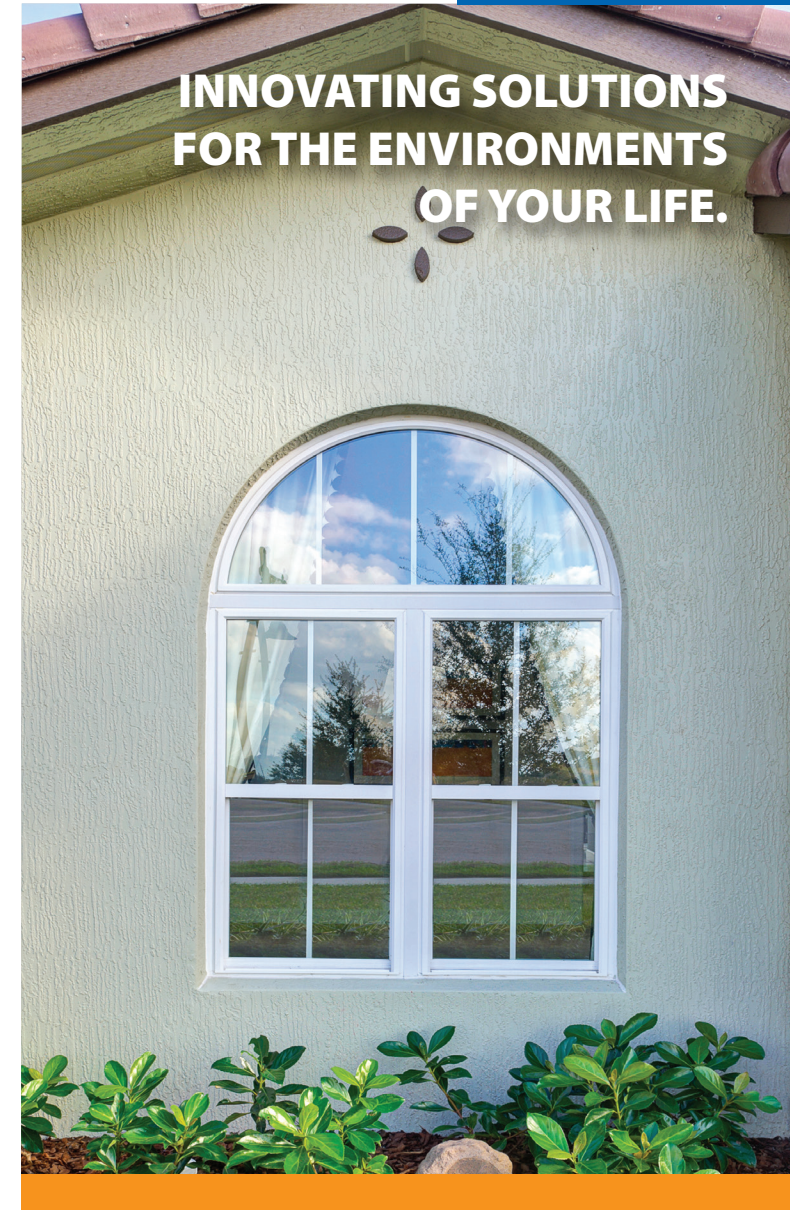

Our products and technologies continually set new standards for performance and durability. We hold more than 160 patents on processes, technologies and material science.

5 REASONS to choose SunShield

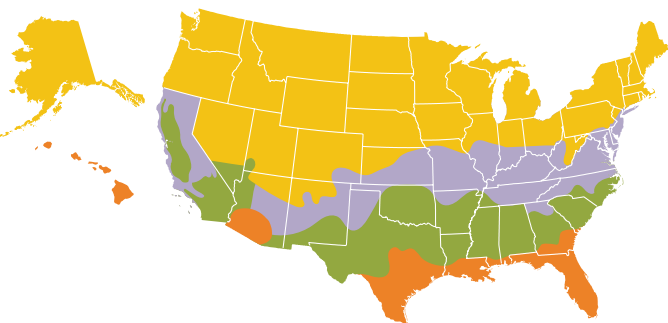

SunShield is a proprietary high-performance vinyl compound developed by the material scientists at Deceuninck. SunShield is uniquely formulated and laboratory-proven to perform better than alternative building materials.

1 SUPERIOR WEATHERABILITY

SunShield is uniquely formulated to withstand the harsh effects of weather, ultraviolet light and southern exposure.

Materials designed with SunShield maintain excellent performance for the life of the product, regardless of geographic location.

2 DESIGNED TO PERFORM

Our industry partnerships and on-going research into new technologies ensure that the SunShield formulation exceeds industry standards and outperforms the competition.

By focusing on the complete formation – not just the individual components – the material scientists at Deceuninck ensure that the whole system works together to offer best-in-class technology.

3 COLOR RETENTION

Deceuninck's pharmaceutical-grade compounding and blending systems provide consistency in SunShield formulations, so you can rely on superior color and weatherability from the first product to the last.

4 UNCOMPROMISING QUALITY & PERFORMANCE TESTING

SunShield vinyl meets or exceeds the standards for strength and color retention established by the American Architectural Manufacturers Association (AAMA).

To ensure SunShield performs well in any climate, Deceuninck conducts accelerated and real-time weathering tests in certified testing labs located across the country.

Deceuninck also participates in third-party certification to guarantee that SunShield delivers as promised.

5 LOW-MAINTENANCE

SunShield is the low-maintenance choice for residential and commercial use.

Resistant to rot, insect and microbial damage, products made with SunShield never require painting and are easy to clean with common household cleansers.
