Watermelon	3-5 hls		1 ounce	96	120	96	0.5	85-95	590	6

* Vegetables are primary sources of vitamins A and C. They also are good sources of other vitamins and minerals. In addition, they provide important bulk to our diets. The figures for vitamin content were taken from USDA Handbook 8, *Composition of Foods*. Figures indicate amounts of vitamins per 100 gram sample (about 1/2 pound) for cooked vegetables unless vegetable is normally eaten raw. The average active adult needs about 5,000 international units (I.U.) of vitamin A and 75 milligrams (mg) of vitamin C daily.

** For direct seeding. Normally these vegetables are planted in the garden as plants.

What variety should I plant?

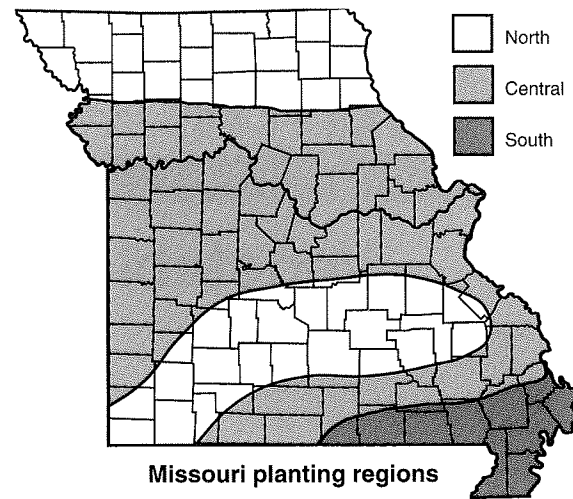

The varieties listed below represent the "cream of the crop." They do not include all of the good ones. In selecting varieties, we primarily consider yield, quality and disease resistance as experienced under Missouri conditions.

When should I plant?

This depends on where you live. Find your county on the map to the right. Note which planting region you are in. In the table below, use the dates given for your region.

If you live in the Ozark plateau area, note that you use "north" planting dates. This is because the higher elevation in your area brings later spring and earlier fall frosts.

Some vegetables may be planted for a fall crop. When this is possible, a second set of dates is listed.

Recommended vegetable varieties and planting dates

Vegetable	Variety	Comment	Dates to Plant		
			South Missouri	Central Missouri	North Missouri
ASPARAGUS	Jersey Giant Jersey Knight Jersey Gem Jersey King Jersey Prince Jersey Supreme Atlas UC157 F2 Mary Washington	Buy 1-year-old crowns. May sow seed and grow plants. Cut lightly for first 2 years. Do not harvest the same year that you plant. 'UC157 F2' and 'Atlas' can be grown in southern Missouri.	3/15-4/5	4/1-20	4/5-25
BEANS					
bush, green	Provider Contender Hialeah Derby Strike Tendercrop Topcrop Royal Burgundy	Mosaic res., white seeded Mosaic res., heat tolerant, high yield Mosaic res., high yield Mosaic res., early high yield Mosaic res. Mosaic res., dark green, tender pods Mosaic res., stringless, high yield Pods turn green when cooked	4/5-5/10 8/1-20	4/15-5/20 7/25-8/10	4/25-5/30 7/25-8/5
pole, green	Kentucky Wonder Blue Lake	Standard pole bean with distinctive flavor Good eating quality	4/20-5/15	5/1-20	5/10-20
half-runner types	Mountaineer State Striped	Good yield. Pods light green Pods slightly curved. Some drought tolerance Vigorous, can be interplanted with corn	4/15-5/10 8/1-20	4/15-5/20 7/25-8/10	4/25-5/30 7/25-8/5
bush, yellow	Gold Crop Slenderwax Gold Mine Gold Rush Eureka	Excellent quality Good yield, heat tol. White seed, mosaic res. Good yield Good yield Good yield	4/5-5/10 8/1-20	4/15-5/20 7/25-8/10	4/25-5/30 7/25-8/5
bush, lima	Henderson Bush Fordhook 242	Popular baby lima Reliable large seeded lima. Sets pods well in hot weather.	4/25-5/20	5/15-25	5/10-25
pole, lima	King of the Garden Speckled Christmas	Large seeded lima; good quality Large, speckled, full flavor	5/1-15	5/10-15	5/15-25
bush, Italian	Roma II	Large, flat, distinctive flavor	4/15-5/15	5/1-20	5/10-25
soy, edible	Hakucho, See comment	Varieties not standard, use those available	4/25-5/20	5/5-20	5/10-25
dry, shelled	Dwarf Horticultural Red Kidney	Small, dry, white bean Red, kidney-shaped	4/25-5/15	5/5-20	5/10-25
BEETS	Detroit Dark Red Early Wonder Tall Top Ruby Queen Crosby Greentop Red Ace Asgrow Wonder Rosette Formanova (Cylindra)	Standard table beet, excellent quality Early Bright green tops for bunching Heat tolerant, high sugar content Early Hybrid, holds size well Dark red, cylinder-like shape	3/1-25 8/1-15	3/15-4/15 8/1-10	4/1-15 7/25-8/1

Vegetable	Variety	Comment	Dates to Plant		
			South Missouri	Central Missouri	North Missouri
BROCCOLI (plants)	Premium Crop	Mid-season, large center heads, few side shoots	3/10-30	3/20-4/10	3/25-4/5
	Leprechaun	Early, large beads, slightly domed	8/1-15	7/25-8/5	7/25-30
	Regal	Early, medium to small beads, firm domed head, side shoots			
	Green Comet	Early, excellent center heads, large side shoots			
	Emperor	Early-mid, few side shoots			
	Packman	Early, large heads, few side shoots			
	Green Valiant	Mid-season small beads, firm head			
	Goliath	Mid-season, large tight heads			
Arcadia	Late, tight head; Bacterial soft rot resistance				
Marathon	Medium-late; excellent quality				
Triathlon	Late maturing; excellent quality				
BRUSSELS SPROUTS (plants)	Jade Cross Hybrid	Early, good quality	3/10-30 8/1-10	3/20-4/10 7/25-30	3/25-4/5 7/20-30
CABBAGE (plants)	Stonehead	Very early, small head	3/5-4/5	3/20-4/20	4/1-20
	Golden Acre	Early excellent quality	8/1-15	7/20-8/5	7/20-30
	Bravo	Mid to late season; excellent quality			
	Market Prize	Blue-green, widely adapted			
	Savoy Ace	Good quality savoy type			
	Head Start	Early, medium size head			
	Charmant	Early, small head			
	Conquest	Mid-season, medium size head			
	Gourmet	Mid-season, medium-large head			
	Green Cup	Mid-season, medium-large head			
	Cheers	Late-season, large head			
	Rio Verde	Late-season, large head			
	Red Ace	Red, firm head			
	Royal	Red, stores well			
	Regal Red	Early			
Ruby Perfection	Late, deep red color				
CARROT	Nantes Improved	Stump root, best adapted to Missouri soils	3/5-25	3/15-4/5	3/25-4/10
	Royal Chantenay	Blocky roots, adapted to heavy soil	8/1-15	7/25-30	7/20-30
	Thumbelina	Round carrot for heavy soil			
	Amina	Baby carrot, harvest at 3 in.			
	Sugarsnax 54	High in beta carotene			
Bolero	Excellent for fall carrots				
CAULIFLOWER (plants)	Snow Crown	Early; good for spring and fall	3/5-4/5	3/20-4/20	4/1-20
	Snow Ball	Uniform, weather tolerant	8/1-15	7/20-8/5	7/20-30
	Andes	Open pollinated			
	White Sails	Mid-season, internal black speck resistant/tolerant			
Silver Streak	Late, for fall harvest				
CHINESE CABBAGE	Jade Pagoda	Early spring (plants), fall planting	3/5-4/5	3/20-4/20	4/1-20
Sumiko	50-day compact Napa type				
COLLARDS	Georgia	Used for cooking greens	3/10-30	3/15-4/10	3/20-4/10
	Vates	Used for cooking greens			
	Blue Max	Blue-green leaves			
Hi Crop	Blue-green leaves				
CORN, SWEET					
Yellow, sugar-enhanced	Legend	Early	4/15-8/15	4/25-8/1	5/1-7/20
	Sweet Riser	Early; isolate from other sweet corns.			
	Incredible	Mid-season			
	Bodacious	Mid-season			
	Kandy Korn	Mid-season			
	Tuxedo	Mid-season			
Sugar Ace	Mid-season; isolate from other sweet corns.				
Bi-color, sugar-enhanced	Seneca Arrowhead	Early			
	Argent	Mid-season			
	Trinity	Early			
	Sweet Chorus	Early; isolate from other sweet corns.			
	Temptation	Early			
	Sweet Symphony	Early; isolate from other sweet corns.			
	Lancelot	Mid-season			
	Delectable	Mid-season			
Wizard	Mid-season				
White, sugar-enhanced	Sweet Ice	Early; isolate from other sweet corns.			
	Seneca Sensation	Early			
	Alpine	Mid-season			
	Silver King	Mid-season

	Saturn	Early			
	Endeavor	Early-Mid			
Bi-Color, supersweet	Bunker Hill	Mid-season			
	Flagship II	Mid-season			
	Morning Star	Mid-season			
	Primetime	Mid-season			
	Zenith	Mid-season			
	Candy Corner	Early			
	Everprime	Early			
Festival	Early				
White, supersweet	Candy Store	Mid-season			
	Crisp 'n' Sweet 710A	Mid-season			
	Phenomenal	Mid-season			
	Summer Sweet 8102	Mid-season			
	Ice Queen	Early			
	SummerSweet 781 Ultra	Mid-season			
Vail	Mid-season				
Silver Xtra Sweet	Mid-season				
Even Sweeter	Mid-season				
CUCUMBER					
Slicing	Dasher II	Early, dark green; concentrated set	4/25-5/30	5/5-30	5/10-30
	Marketmore 76	Dark green			
	Superset	Early, dark green			
	Sweet Slice	Sweet, burpless			
	Sweet Success	Grows seedless without pollination			
	General Lee	Mid-season			
	Revenue	Mid-season			
	Poinsett 76	Mid-season			
	Lightning	Very early			
	Speedway	Very early			
	Thunder	Very early			
	Pickles	Calypso			
Carolina		Mid-season			
Francipak M		Early to mid-season			
Green Spear 14		Mid-season			
Bush types	Homemade Pickle				
	Bush Pickle	Concentrated set			
	Little Leaf (H-19)	Compact vine			
	Salad Bush	Slicer			
EGGPLANT (plants)	Dusky	Extra-early; pear-shaped	5/1-20	5/10-25	5/15-25
	Black Bell	Deep purple			
	Beauty	Late, Black Beauty-type hybrid			
	Classic	Early; long, slim, tapered			
	Epic	Early; oval			
	Ichiban	Early; long, slender, "oriental" type			
	Kiko	Early-mid-season			
	Caspar	White, cylindrical			
	Rosita	Mid-season; lavender, long, cylindrical			
ENDIVE	Green Curled	Deeply cut leaf margins, green ribs	3/15-4/5	3/25-4/15	4/1-15
	Full Heart Batavian	Also known as escarole, buttery texture			
KALE	Blue Armor		3/10-30	3/20-4/5	3/25-4/5
	Blue Knight				
	Dwarf Curled Scotch				
	Dwarf Siberian				
KOHLRABI	Grand Duke Hybrid	Use when 2-2.5" in diameter	3/15-4/5	3/25-4/15	4/1-15
	Eder	Early, high yield			
LETTUCE					
Leaf	Tango	Excellent for early spring	3/10-5/1	3/15-5/10	4/1-5/15
	Black Seeded Simpson				
	Salad Bowl				
	Tiara				
	Glossy Green				
	Green Wave				
	New Red Fire				
	Vulcan				
	Sierra				
		Slow bolting; red leaves

PARSNIPS	All America Hollow Crown	Large, tapered roots Seed slow to germinate	3/20-4/10	4/1-20	4/10-20
PEANUTS	Spanish Jumbo Virginia	Small, sweet, early Large, rich flavor	4/25-5/15	5/5-25	5/10-20
PEAS					
English (shell peas)	Little Marvel Green Arrow Spring Knight Bolero Green Arrow Lincoln	Plants small but productive, early High yield, disease resistant Early Early, short vines Mid Mid to late, long holding in field Mid to late, very sweet	3/1-30	3/15-4/10	3/25-4/10
Snap peas (edible-podded)	Sugar Bon Sugar Ann Cascadia Supersnappy Oregon Giant Snowflake Super Sugar Pod	Early Early Mid Mid, large pods Mid to late, large pods Late, dark green Late, long vines	3/1-30	3/15-4/10	3/25-4/10

Vegetable	Variety	Comment	Dates to Plant			
			South Missouri	Central Missouri	North Missouri	
Southern peas (cowpea)	Mississippi Silver	Early maturing, brown crowder; use green or dry Bushy, vining to semi-vining plant, white with small purple eye	4/15-30	4/25-5/15	5/1-15	
	Pink Eye Purple Hull					
PEPPER (plants)						
Sweet (bell)	Marengo	Yellow at maturity, thick walls	5/1-25	5/10-30	5/15-30	
	Gypsy	Early, yellow-green fruits				
	King Arthur	Early, blocky green and red				
	Paladin	Excellent for green or red bell peppers				
	Golden Bell	Blocky, thick, sweet yellow				
	Acapulco	Early, blocky, vigorous plant				
	Merlin	Early, blocky				
	Sentinel	Early-mid-season, blocky; resistant to strains 1, 2 bacterial spot				
	Vidi	Early-mid-season, 4 lobes, long, Good for red peppers				
	Boynton Bell	Mid-season, blocky; resistant to strains 1, 2, 3 bacterial spot				
	Bell Captain	Mid-season, long blocky; resistant to strains 1, 2, 3 bacterial spot				
	Commandant					
	Bell King	Mid-season, long blocky				
	Camelot X3R	Mid-season, long blocky; resistant to strains 1, 2, 3 bacterial spot				
	Enterprise	Mid-season, long blocky				
	Jupiter	Mid-season, blocky				
	Ranger	Mid-season, blocky				
X3R Aladdin	Excellent yellow bell pepper					
X3R Red Knight	Excellent red bell pepper					
X3R Wizard	Resistance to bacterial spot					
Hot	Hungarian yellow	Long, tapering				
	Jalapeno	Heart shaped; green to red color				
	Habanero	Late, very hot				
	Charleston Hot	Nematode resistant, hottest Cayenne type				
	Scotch Bonnet	Small round fruit, extremely hot				
	Jalapeno Mitla					
	Long Thick Red					
	Ring of Fire					
Copacabana						
POTATO (IRISH)						
White skin	Irish Cobbler	Late, excellent, resistant to late blight, skins easily	3/10-30	3/20-4/10	4/1-15	
	Kennebec					
	Red skin					
Red skin	Red Norland	Very early, smooth, shallow eyes, resistant to scab				
	Dark Red Norland	Very early, good scab resistance; dark, deep red, smooth skin, shallow eyes				
	Redsen	Early, attractive red, round, smooth potato				
Russet skin	Red Pontiac	Late, good quality and yield				
	Norgold Russet	Best russet, yield and quality good				
Russet skin	Russet Burbank	Early, good appearance with good baking quality				
	Russet Norkotah					
PUMPKIN	Howden Biggie	Connecticut Field type, large Good for Halloween, Novelty miniature for decoration White with orange flesh Small pie pumpkin, stores well Semibush type, hybrid Semibush plant produce 3-5 lb fruit	5/1-15	5/15-25	5/20-30	
	Jack-O-Lantern					
	Jack-Be-Little					
	Lumina					
	Small Sugar					
	Spirit
