

Spicewood Energy Management Expands Footprint by Bringing Texas Oil Investments into South Florida Marketplace

FOR IMMEDIATE RELEASE

SEM, which was formed to manage oil and gas investments through multiple limited partnerships, has recently expanded its footprint into the South Florida market by facilitating both domestic and international direct investments.

October 29, 2013 (Spicewood, Texas USA)- Spicewood Energy Management, LLC has recently expanded its footprint into the South Florida market by facilitating both domestic and international direct investments into the oil and gas sector. Last month, SEM hosted its first *Oil & Gas Symposium* in Miami (Brickell Area) which was attended by some of the leading Private Equity Firms and Family Offices in the area. Such symposium served to educate RIAs and Money Managers on current energy trends including the highly mediatized *Texas Oil Boom* that is highlighted in the November 2013 issue of Texas Monthly Magazine.

“Over the past couple of months, our South Florida partners has expressed an increased interest in placing their investment dollars into oil drilling, specifically Texas oil drilling. With Texas being the #1 US oil producing state, it is no shock to us that investors are becoming more and more aware of the current trend in drilling shallow, conventional oil plays here in Texas, which SEM specifically focuses on,” stated Waylan Johnson, President of SEM. He further stated, “This Symposium allowed us the opportunity to further educate our audience on the various types of energy investment opportunities available and how each might best suit their client’s portfolios.”

SEM has also been asked to attend the Miami Finance Forum CEO Power Breakfast Discussion later this week. This event will host panelists from some of the leading Private Equity Firms in South Florida and will be moderated by a KPMG partner. SEM will also partake in the Apex Fund Services Alternative Investments Event which caters to the Hedge Fund Community of South Florida and is attended by guests from all over the US including Private Wealth Management Offices, Family Offices and Allocators.

“We are excited at the prospect of furthering our business relationships in the South Florida marketplace and will continue to assist in providing energy sector investment opportunities through our Texas Limited Partnerships,” stated Mr. Johnson.

About SEM

Spicewood Energy Management, LLC (SEM) is a Texas based oil and gas company that has offices located in Spicewood, Texas and Port Aransas, Texas. SEM will manage oil and gas investments through multiple limited partnerships, which will be formed in the state of Texas and filed pursuant to Blue-Sky filings. SEM announced the formation of its first partnership, the Spicewood Energy Fund I, LP (SEF1) in February 2012.

SEF1 provides investors the opportunity to largely diversify their portfolio by investing in a Limited Partnership which will engage in all aspects of oil and gas exploration, development and production. SEFI is

structured so that within a single investment, an investor will have the ability to acquire working interest in drilling projects, producing mineral interest and proprietary seismic data as well as develop leasehold acreage, pipelines, gas gathering processing systems, and commercial salt water disposal, all at a ground floor entry point.

Duff & Phelps, a leading global financial advisory and investment banking firm, has completed an independent due diligence report on SEM and SEMF1. This comprehensive research report is available to RIA and family office due diligence analysts.
