Cherry Blossoms

Hello everyone,

A new school year starts and we have our theme All About Me! For the past few weeks we have been welcoming new children to our classroom, learning about ourselves, our families and friends. Through art we made self portraits and learnt about eye colours. We sang songs like head shoulders knees and toes to learn body parts. We did lots of messy play and made worry monsters and mark making.

Heathers

For our **Heather class** this month we continued to let our new preschool friends settle into our room and routine. We spent a lots of time learning about bathroom hygiene, going to the toilet and washing our hands before meals and after outside play. We also learned about our centre, being safe in our classroom's and outside. We also learned about the theme of all about me where we practiced saying our friends names and made puzzles from pictures of ourselves. We made art using cotton buds to support our fine motor skills and other table top activities like lacing.

Thank you!
