**Camp Workers**

Because there has been a notable increase in cases involving abuse in all types of child care activities, and in as much as more stringent rules are being required of those who participate in youth related activities, it has become necessary for the Kentucky District to implement safe guards with regard to all camp workers and/or others on the campground during times when children are present.

**In order to provide the safest environment possible for Junior Campers, all Camp workers who did not receive a background check in 2018 will be required to complete a Worker Application and have a background check for: identity verification, criminal record and sex offenses before being approved to work at the 2019 Junior Camp.**

Upon receipt of your Worker Application a check will be requested by Bro. Elliott. You will be notified by email and required to submit information needed to authorize the check.

VeriFirst Background Screening will perform the check and send results to Bro. Elliott with a confirmation message to you.

A \$20 fee is required and is payable at the registration desk on Monday during registration.

**Anyone desiring to be a camp worker, but has not completed an application and received authorization from Bro. Elliott cannot be permitted to be a worker.**

*The deadline for WORKERS application is **June 1***
