

# All-Wood Units: BENEFITS OF ACCOYA WOOD

Accoya Wood is modified timber that resists rot, defies the elements, and stays strong for decades, making it the perfect material for all-wood patio doors.

Accoya Wood is available for all-wood units and comes with a 5-year warranty with no overhang requirements. Solid Accoya Wood doors are the best option for clients seeking all-wood units.

## STRONG & DURABLE

Accoya Wood lasts at least 50 years above ground. There is no overhang needed for protection because it is engineered to withstand the elements.

## DIMENSIONALLY STABLE

Accoya Wood's dimensional stability reduces swelling and shrinkage, ensuring doors and windows open effortlessly year round.

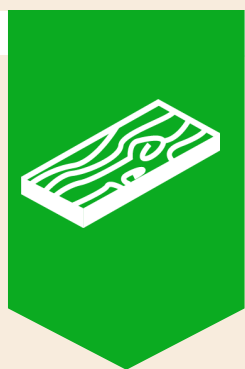

## PAINT & STAIN RETENTION

Accoya is easier to coat and can be painted or stained. Improved stability means coatings last up to two times longer than coating on other wood.

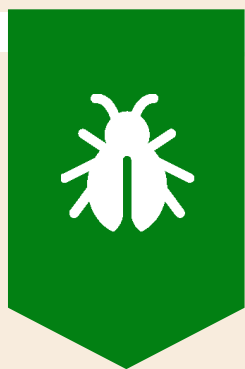

## NATURALLY INSULATING

Accoya Wood offers improved insulation compared to commonly used hardwood and softwood species, making it ideal for energy efficient fenestration.

## NATURALLY BEAUTIFUL

The process does not compromise the wood's natural beauty.

## INSECT BARRIER

Accoya Wood is indigestible to a wide range of insects, including termites.
