

Splash Mob Apprentice Application

ArtsTech's mission is to better the lives of underprivileged urban youth through the development of marketable artistic and technical skills. Splash Mob is a program offered at Artstech, consisting of young, local artists who are developing their artistic talent into marketable skills. These artists produce client-commissioned work and design and implement fire arts programming for local organizations. Youth learn how to market themselves, and how to handle the basics needed to succeed in a future arts-related career.

If Interested, please fill out the following information and mail to:
