Earth Vigor will stir up the soil! Your plants do not need feeding when you feed the system that feeds your plants. Wild hemp is harvested by hand from a secret underwater garden that has been tended for more than two decades. Kelp is loaded with micronutrients and invigorates nutrient uptake by opening the root system. It is a powerful bioactivator, helping to break down compost and plant materials. Kelp improves soil structure, increases yield and reduces stress from drought and frost.

Bio-dynamic inputs in **Earth Vigor** include various esoteric concepts from the work of Rudolf Steiner which maximize the potential for plant growth by recreating the complete and complex **synergy** between minerals, microbes and enzymes present in nature. Biodynamic farming is the highest level of growing technique which strives to create the best growing environment possible. Bio-dynamic farming provides nutrients to plants, in a sustainable way, with great diversity, resulting in a healthier and stronger crop.

Blackstrap molasses adds high amounts of calcium, magnesium, iron and potassium, as well as sulfur and micronutrients. Molasses provides a quick source of energy and nourishes beneficial microorganisms. Citric acid lowers acidity Ph in the soil among other benefits like helping to break down soil constituents. Vitamins are necessary for every stage of plant growth while microbes make it all work together for the benefit of the plant, the soil and the ultimate consumer.

Earth Vigor is a concentrated invigorating stimulant for plants and soil, natural and organic with Bio-Dynamic inputs that increase cationic exchange. Earth Vigor will visibly enhance growth, stimulate immunity and strength and higher crop yield.

Contains Organic molasses, wild harvested kelp, BioDynamic inputs, minerals, citric acid, vitamins, microbes and more.

Directions: Use in Compost Tea recipe, hydroponics, topical spray or douse.

Foliar spray: Mix 1 ounce of product in 1 gallon of water.

Fertigation: 1 tsp.- 3 Tbsp. per gallon of water.

Weekly: Mix 1 Tbsp. per gallon of water.

Shake Well.

The **Vortex Brewer®** is unlike any compost tea brewing system on the market. It has limitless uses, from growing microbes to generating living, energized water.

Not only does the **Vortex Brewer®** create living, organic compost tea, but it acts as an extractor, it will potentize fertilizer recipes, allow for perpetual brewing, and can stir Bio-Energetic concoctions for anything from stimulating soil regeneration to concentrating pest or disease control applications. All of this is done through respect for the abilities of water. Water is a magical substance that when used merely to dissolve substances as a delivery system loses its greatest ability to hydrate cells and facilitate the communication of subtle energies.

With the **Vortex Brewer®**, "We don't make a vortex, we allow it!"
